Championship Qualifying Standards

Athletes may qualify for the MAC Outdoor Track and Field Championships by either meeting the "automatic" performance standard and/or fall within the descending-order list to fill the field. [Adopted 2/2012]

1. **Automatic Performance Standard.** Automatic performance standards shall be determined from the 5-year average, of the 8th best performance mark, for the women and the 5-year average, of the 6th best performance mark for the men in each event, from the final Conference rankings/performance list (through the MAC Championships) and approved by the Track and Field Coaches committee each year.
2. **Event Field Size. A. WOMEN** (Outdoor) Event fields for the women's outdoor track and field championships will be limited to **20** athletes per event, unless the number of declared automatic qualifiers exceeds 20. If the number of declared automatic qualifiers does not exceed 20 in an event, the field will be filled out to a total of 20 athletes per event based on the descending order list* of the remaining declared athletes.
B. MEN (Outdoor) Event fields for the men's outdoor track and field championship will be limited to **16** athletes per event, unless the number of declared automatic qualifiers exceeds 16. If the number of declared automatic qualifiers does not exceed 16 in an event, the field will be filled out to a total of 16 athletes per event based on the descending order list* of the remaining declared athletes.

Note: in the event number of automatic qualifiers exceeds the field size limits all declared athletes may be entered, and shall compete in that event.

3. **Tie-Breaker Procedure – Performance Marks.** Any descending-order list ties, by mark, to be accepted will be resolved by the examining of those tied, the second best valid qualifying meet performances submitted during the season, and so on until there is no basis for a mark comparison.

For a tie not resolved after all available mark comparisons, acceptance will be awarded to the competitor who achieved the original tying mark later in the season.

For a tie still not resolved, acceptance will be awarded to the competitor who achieved the second best qualifying meet performance later in the season, and so on until there is no basis for date comparison. As a last resort, the tie for the last qualifying position will be decided by the toss of a coin.
